

Let's work together to get this done in the legislature and get California Working Again!

- If we don't maintain existing revenues, Californians could be facing the devastating alternative of an "all-cuts" budget.
- The people of California voted for Governor Brown to help us get our state working again. We're ready to work with the Governor to get the necessary votes in the legislature for an on-time budget with the revenues we need to keep California strong.

With the Governor's leadership and support – we can do this now!

- Without these common-sense revenue in place -- essential programs and services would shut down, and it's California's most vulnerable children, seniors and families who suffer most.
- Maintaining current revenue streams in order to prevent any additional drastic cuts that negatively impact families, seniors, and children is our number one priority – even if it means not taking revenues to voters in an election!
